RE: LCV Victory Fund
ID# C00486845

Dear Mr. Buckley:

On October 27, 2012, the LCV Victory Fund filed a 24-hour report involving activity for the AZ Senate Race. The 10/27 independent expenditure to Google Inc. was originally reported in the amount of \$15,000.00. On October 28, 2012 LCV Victory Fund filed an additional 24-hour report for a separate expenditure to Google, Inc. for the Presidential race, originally reported in the amount of \$10,000.00. Unfortunately, the ads in these different races were not placed by Google, Inc. in the correct amounts ordered by LCV Victory Fund. The total paid to Google Inc. for \$25,000.00 did not change, but the allocations between the Presidential race and the Arizona Senate race did.

We learned of this error in late November via email. Subsequently, both independent expenditure amount changes were correctly reflected on the Post General FEC report filed on 12/06/2012.

We are now also filing amendments for both 24-hour reports. As reflected on the 24-hour amendments, we are indicating a decrease of \$1,852.70 on the AZ Senate report and an increase of \$1,852.70 on the Presidential report. Both 24-hour reports will be amended today, December 18, 2012.

Thank you in advance,

Patrick Collins, Treasurer
LCV Victory Fund
